

Continuum ~ Maestro Pedicure Chair w/ Vibra-Massage & Heat

Item# CP1001

**Description:**

Turn a pedicure into a full spa experience with the comfortable Maestro pedicure spa.

**Features:**

The Maestro's dual and independent leg supports pivot upward to support the entire leg, not just the foot. Feet are perfectly positioned for massage and pedicure treatments. The Maestro also features Vibra-Massage + Heat (a commercial-grade, vibration/heat massage that offers a whisper quiet and soothing alternative to the full shiatsu massage chair. Controlled by simply adjusting the intensity and location on the client's remote. vibration is embedded into the seat back, while heat is focused on the client's lower back). Includes a touch of the Fill button that automatically fills the basin to the proper level. New Intuitive Keypads: Two convenient Chair Control Keypads; one located on the arm for the client; one up front for the Technician. Both control forward/backward, tilting and returning chair to the "Home" position allowing safe and easy enter and exit. Also includes; NoPipe Luraco iFill 3 magnetic jets, handheld sprayer, drain and all seat movements allowing the technician to move the chair back and forth without having to disturb a relaxing client. When chair is in "Home" position, gently lift up lever allowing chair to swivel.
