

Spa Pro~ 6Qt Stone Warmer

Item#S6014

Description:

Designed for massage stones, this 6 quart unit is the perfect size for a small amount of stones. Stones complete the kit for everything you need.

Features:

It features a porcelain coated removable water reservoir with an easy-to-clean finish. The temperature control features a "preheat" setting of 375 degrees Fahrenheit to heat the water quickly as well as providing an "operating range" of 120-150 degrees Fahrenheit that lets you rapidly bring the stones up to the proper temperature for therapeutic use, and then maintains a constant, even temperature.
